### PRESAGE ENAMEL

From the Presage Collection. Offering the finest in Japanese mechanical watchmaking, the Presage Collection blends precision technology with superior craftsmanship and design. A tribute to the famed minimalist clock design of Riki Watanabe and the craftsmanship of enamelwork masters, this sophisticated watch highlights a range of Japanese artistic achievement. The clean white dial showcases both the unique depth of fine enamel and the simplicity of Watanabe's bar indices and distinctive hands. A screwdown see-through caseback provides a view of the 24-jewel automatic movement with manual winding capability, a frequency of 21,600 vibrations per hour and a power reserve of approximately 70 hours. Featuring a dual-curved sapphire crystal with anti-reflective coating on the inner surface, and a date calendar, this elegant design is crafted of stainless steel with a sleek black cordovan leather strap and tri-fold push button release clasp. 10 bar, 100M Water Resistant

### FEATURES

Riki Watanabe design

White enamel dial

Automatic with manual winding capability
