PRESAGE ENAMEL

From the Presage Collection. Offering the finest in Japanese mechanical watchmaking, the Presage Collection blends precision technology with superior craftsmanship and design. A tribute to the famed modernist clock design of Riki Watanabe and the craftsmanship of enamelwork masters, this sophisticated watch highlights a range of Japanese artistic achievement, from intricate ancient traditions to masterful contemporary minimalism. The clean blue dial, with power reserve indicator and calendar subdial, showcases both the unique depth of fine enamel and the simplicity of Watanabe's bar indices and distinctive hands. A screwdown see-through caseback provides a view of the 29-jewel automatic movement with manual winding capability, a frequency of 28,800 vibrations per hour and a power reserve of approximately 45 hours. Featuring a dual-curved sapphire crystal with anti-reflective coating on the inner surface, this elegant design is crafted of stainless steel with a sleek brown cordovan leather strap and tri-fold push button release clasp. 10 bar, 100M Water Resistant.

FEATURES

Riki Watanabe design

Blue enamel dial with white markers

White steel hands

Automatic with manual winding capability

Power reserve indicator

Date display

Tri-fold push button release clasp

See-through caseback
